

WRANGLE PARISH COUNCIL - RISK ASSESSMENT AND MANAGEMENT

Introduction: An Overview

- Risk assessment was introduced by and under the umbrella of the Health & Safety Executive as a pro-active measure to reduce accidents in the workplace.
- This successful tool has now been extended into other areas of interaction.
- Wrangle Parish Council has decided to adopt the formula set out in the following 'RISK MANAGEMENT' to facilitate a better, safer and less litigious environment. (Risk management should be read in conjunction with the attached 'ASSESSMENT')
- The Council's formula is founded on 'The five steps of Risk Assessment' published by the Health and Safety Executive:
 - a. Look for hazards
 - b. Who may be harmed and how?
 - c. Evaluate the risks
 - d. Record findings
 - e. Review and revise assessments regularly

Implementation:

1. Designated Officers will be responsible to the Parish Council for the implementation of the five steps to Risk Assessment listed a to e above
2. Designated Officers will inspect all Parish property as set out in the Inspection Book at intervals set by the Parish Council.
3. Designated Officers will report to the Parish Council at each meeting and liaise with the Chairman and Clerk to advise them of any incident pertaining to any Health and Safety issue.
4. Designated Officers will be responsible for the maintenance of the Inspection book and for maintaining the RIDDOR book and forwarding relevant information to the Chairman and Clerk.
5. Designated Officers will liaise with the relevant Health and Safety Executive to maintain a current understanding of changing legislation.

Mission Statement of Parish Council:

To provide services for, and manage and maintain the assets of, the village of **WRANGLE** within the resources provided by the annual precept and other incomes, taking into account the wishes of the residents and obtaining value for money.
