Items for the parish news need to be sent to [wranglepc@aol.com](mailto:wranglepc@aol.com) by the 14th of the previous month

Following a very dry start to 2022 the weather is now beginning to break up. Two named storms are on their way, with strong gales. Signs of spring are already appearing though, with lots of snowdrops, some aconites and small green buds showing on the hawthorn hedges. The first daffodils are just showing colour and will soon be in profusion.

We have just planted eight good pedunculate oak trees in a roadside grass field, to create parkland. These have been fenced round to protect from cattle and roe deer.

The cover picture shows the interactive speed sign on the main road, which has been non-operational for some time. Now that the obstacles, put there to obstruct collection and replacement for charging, have been removed normal service should be resumed. Several speeding vehicles have been observed, including many tractors travelling way beyond their legal limit of 25 mph.

I have been re-shafting some hand tools, and this has become quite a challenge now, since quality new shafts are all but impossible to source, and the correct rivets rarely available. This brings back memories of our excellent old blacksmith, Mr. Spikings, an absolute master craftsman, who was so pleased to show anyone with obvious interest how the job should be done. He said that he learned, as an apprentice to Mr. Parker (I believe of Sibsey) who would say that the shaft should look as though it had 'grown in the socket'. I need a couple of double bend spade shafts, but can't find any and there are no proper hand-fork shafts to be found anywhere.

*George Danby*

## **Lincolnshire Lives**

March, like life, is about extremes;  
stormy seas and peaceful dreams.  
Biting winds strike like hurtful words,  
a gentle breeze blows – a memory's stirred.

Sometimes we need a 'listening ear',  
our thoughts to share, our minds to clear.  
More than ever in our changing world,  
we support each other to 'weather storms'.

And when life brings love and laughter  
or good news we long to share,  
we enjoy friendship in its many forms  
... different lives but similar 'norms'...

March may be unpredictable,  
its weather wild and free  
but nature always breathes new life.  
In Lincolnshire, there's much to see!

© Annette Borrill

## **Enjoy Walking?**

At this time of year we start to think about the mud drying up and getting out to walk in the beautiful English Countryside again, but where to find new and interesting walks?

The Walking in Lincolnshire website has hundreds of walks to download and print, free, it also has books of walks, details of all the walking groups in the county and much more. Whether you want to walk on your own, or with a group all the information is there in one place.

John Harris (the custodian of the website) said 'There is so much walking information on the web but it is difficult to find. Walking in Lincolnshire has brought it together in one place, so whether you are walking from home, or away on holiday, you will be able to find a walk suitable for you'.

With walks from half a mile to twelve miles (plus) and a note of suitability for pushchairs and wheelchairs, everyone can find a walk to enjoy.

Check out the websites and get walking! [www.walkinginengland.co.uk/lincs](http://www.walkinginengland.co.uk/lincs)

## WITHAM FOURTH DISTRICT IDB

2021 turned out to be a “normal” year in that we did not have an extreme weather event and the rain fell evenly across the year. We took **637mm** of rain (25 inches) across the District, compared to around **786mm** (31 inches) in 2019. From January to December 2021 we pumped a total of **13,040** hours in our manned and unmanned pumping stations, this equates to approximately **131 million tonnes of water**. (Rutland Water holds 124 million tonnes!)

This meant that we were able to concentrate on our maintenance programme and we put together a number of bids for capital projects funded by the Environment Agency. We received £160,000 to improve and expand our telemetry system which provides remote data on actual rainfall and water levels around the system. We then use this data to automatically turn on electric pumps to manage water levels. We were also successful in attracting £360,000 of funding to replace weed screen cleaners and control panels at our Lade Bank and Hobhole Pumping Stations that will be delivered in early 2022. This will help with the significant weed build up in front of our Pumping Stations, when we are pumping.

Next year we are looking at replacing Wrangle Pumping station at Friskney which will cost around £2.5M and will be funded by the Environment Agency. More details will be provided next year.

Finally, COVID permitting, we are hoping to hold another Heritage Open Day at Lade Bank in September and details will appear in the Boston Standard.

# FIX OUR FUNDS TO FIX OUR ROADS

Lincolnshire needs its missing highways funds back before things get worse!

## What £12 million gets you and your roads:

- 24,000 potholes filled
- 37 miles of crumbling road fully rebuilt
- 6 miles of failing footpath repaired

## As it stands:

- Our roads maintenance grant was cut by £12 million – that's 25%
- 660 miles of roads rated poor or very poor that need fixing
- We've filled the funding gap for now, but can't do this forever

Go to [www.lincolnshire.gov.uk/highwaysfunding](http://www.lincolnshire.gov.uk/highwaysfunding) and join our fight for better roads
